

**DIRECTIVE 2015 / 863 / EU RoHS III**

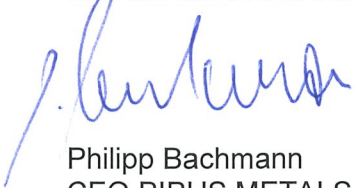

Dear Customer,

Since 31 March 2015, the European Union amended the Directive 2015/863/EU. This directive, known as the "Restriction of the use of Hazardous Substances" (RoHS 3), regulates the use of certain hazardous substances in electrical and electronic equipment sold in European countries.

The RoHS Directive, which was implemented on 1 July 2006, restricts the use of the 10 (ten) hazardous substances listed in this directive and their maximum permitted weight limits are the following:

lead	Pb	0.1%
mercury	Hg	0.1%
cadmium	Cd	0.01%
hexavalent chromium	Cr(6+)	0.1%
polybrominated biphenyls	PBB	0.1%
polybrominated diphenyl ethers	PBDE	0.1%
bis(2-ethylhexyl) phthalate	DEHP	0.1%
Butyl benzyl phthalates	BBP	0.1%
dibutyl phthalate	DBP	0.1%
diisobutyl phthalate	DIBP	0.1%

To our knowledge, our suppliers do not use any of these substances. All materials supplied by BIBUS METALS Group are therefore free of these ingredients and comply with the RoHS Directive on the restriction of the use of certain Hazardous Substances.
